PELLA
PARKS & RECREATION

About Our Parks

The City of Pella Parks system is made up of over 250 acres of parks, green space and athletic complexes. As our park system continues to grow and mature, there is always a need for items such as benches, picnic tables, recycle bins and trees! All of these items help park patrons enjoy and relax in our parks. You can help by donating! A park bench, picnic table, recycle bin or tree can be purchased for many occasions. In memory of a loved one who has passed away, in honor of a dedicated service member, to celebrate a birthday, retirement or other special occasion.

As we focus on making improvements in our parks you will find that some parts of our program are very specific as to the placement of donated items. This is to ensure that we are taking into account the entire park system and placing items were they are needed most.

Donations will be acknowledged with a photo of the item once it is placed. The expected life-span of these items vary and the City does not guarantee that they will be replaced once the useful life-span has passed.

** Donations may be tax deductible, please consult with your tax professional.*
